

Product Series: Interactive Intelligent Panel

Product Model: E6530, E65***(*:0~9,A~Z or Blank) / E7530, E75*****(*:0~9,A~Z or Blank) / E8630, E86*****(*:0~9,A~Z or Blank)**

Regulatory Notices

Low Blue Light

This product supports low blue light by default, which can reduce harmful blue light from 415~455 nm, and it does not affect the color display of the screen.

Flicker Free

This product adopts DC dimming. Compared with other products, there is no visible and non-visible 0~3000Hz screen flicker, which can reduce eye fatigue.

Tips for eye health

Eye exercises can help minimize eye strain. Slowly roll your eyes to the up, down, left and right. Repeat as many times as needed.

When viewing screens for extended periods, it is recommended to take periodic breaks from viewing. Short breaks of at least 10 minutes are recommended after one hour of continuous viewing.

While taking breaks, users can further reduce eye strain and dryness by focusing on objects that are further away from them for 10~15 seconds, then gaze at something up close for 10~15 seconds. Repeat this up to 10 times.

This exercise reduces the risk of your eyes' focusing ability to "lock up" after prolonged computer work.

This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By the appropriate disposal of this product you also help in preventing potentially negative consequences for the environment and human health. The recycling of materials helps preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality, local waste disposal centre or the store where the product was purchased.

Energy Star Statement

ENERGY STAR is a U.S. Environmental Protection Agency voluntary program that helps businesses and individuals save money and protect our climate through superior energy efficiency. Products that earn the ENERGY STAR prevent greenhouse gas emissions by meeting strict energy efficiency criteria or requirements set by the U.S. Environmental Protection Agency. The following logo appears on all ENERGY STAR-certified models:

This product qualifies for ENERGY STAR in the "Standard mode" setting and this is the setting in which power savings will be achieved. Changing the Standard mode picture settings or enabling other features will increase power consumption that could exceed the limits necessary to qualify for ENERGY STAR rating. Refer to EnergyStar.gov for more information on Energy Star program.

The product has Automatic Brightness Control and User Adjustable Backlight functions, users can adjust the backlight in the following ways:

Warning:

Operation of this equipment in a residential environment could cause radio interference.
