About OneScreen Webcam

OneScreen Webcam is a wide-angle USB Camera with built-in microphone that is best suited for video conferencing and recording. Its clip allows it be seamlessly mounted on a OneScreen Interactive Panel and be used on both Android and Windows (plug-in OPS) sources.

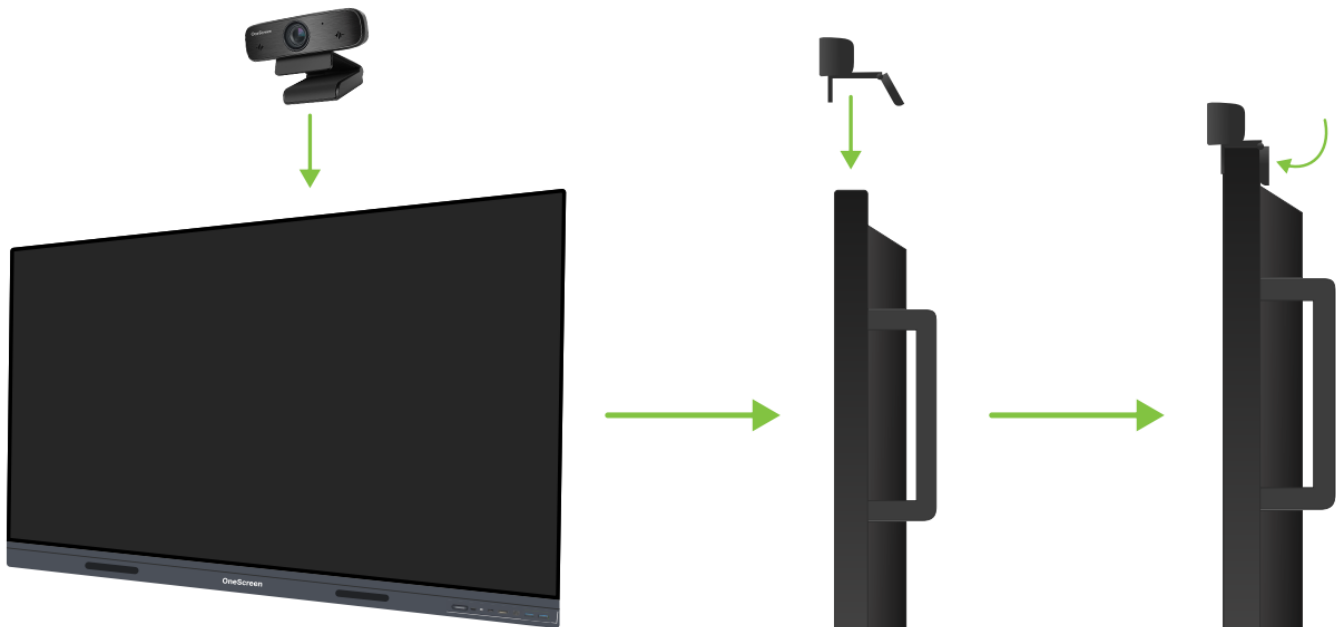

Webcam Installation

Please follow the steps below to connect your OneScreen Webcam to the OneScreen Touchscreen using the clip:

- Open up the Webcam's clip as shown below

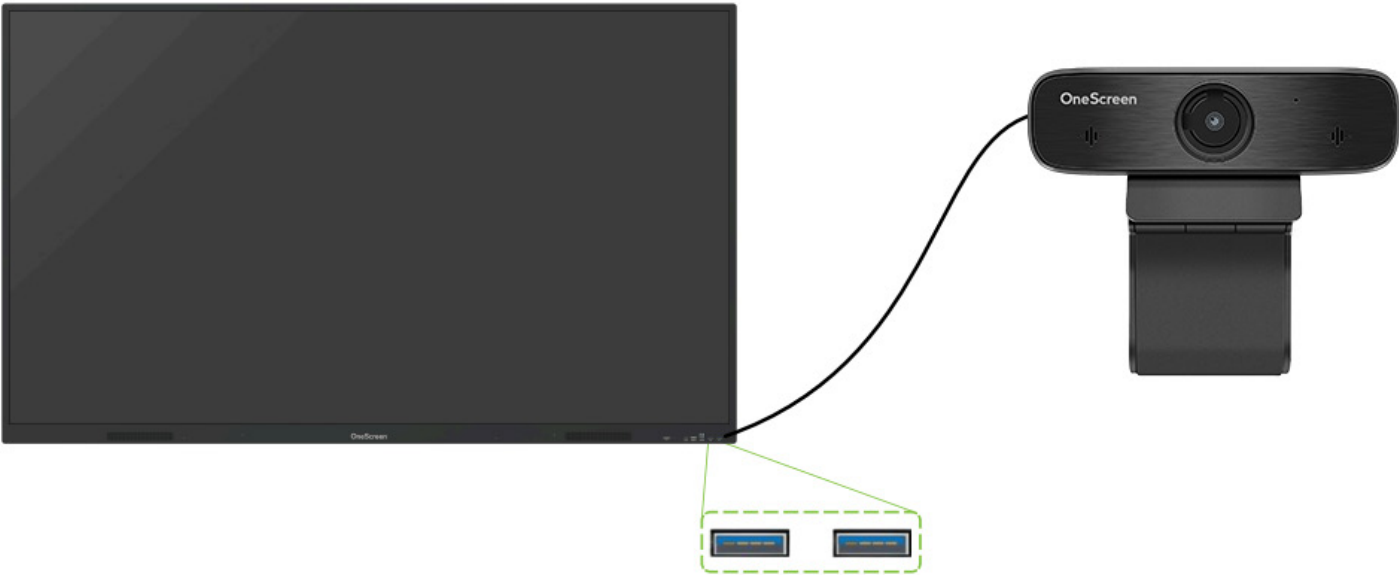

- Place the Webcam on the top bezel of the OneScreen interactive panel and rotate the clip's tail to tighten it properly

- Plug in the USB cable of the Webcam to any of the USB-A ports of the Touchscreen panel

Note: All USB ports except the USB 2.0 port at the bottom of the panel are common between Android and the OPS source after enabling the 'Control' option from the PIP source window.

Product Specifications

Camera

Resolution	1080p Full HD
Sensor	1/2.8", CMOS, Effective Pixel: 2.07M
Lens	Focus: f=2.8mm
Field of View	90°
Digital Zoom	4x

Power Consumption

Input Voltage	5V (USB power supply)
Current Consumption	0.2A
