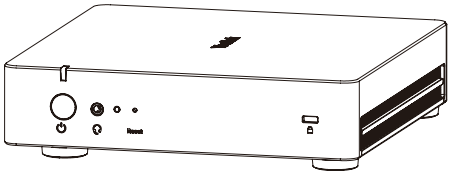
Quick Start

MCoreKit-C5U for Microsoft Teams Rooms System

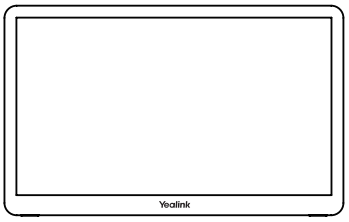
1 Minimum Requirements

- A display connected to MCore 4 (not included).
- A Microsoft Teams Rooms account (not included).
- Wired network environment (not included).

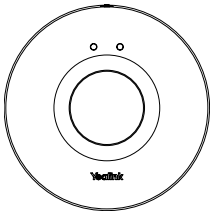
2 Package Contents



MCore 4 Package



MTouch Plus Package

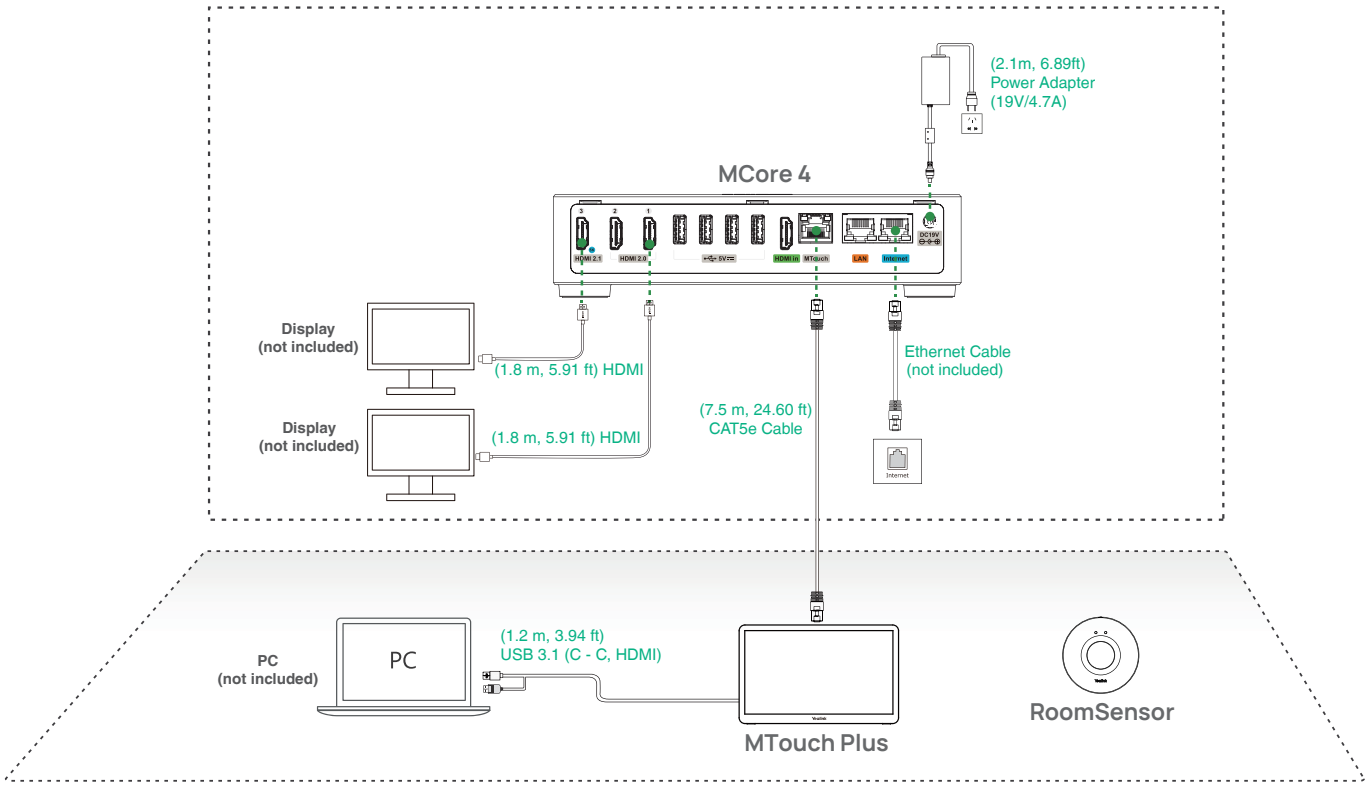


RoomSensor Package

3 Installation

- MCore 4 supports: mount on the wall, mount on the TV, put on a table.
- MTouch Plus supports: put on a table, paste on a table, fixed on a table, mount on the wall.
- Roomsensor supports: mount on the ceiling, mount on the wall.

4 Connection



- When starting up the system for the first time, you need to connect a mouse to complete the initial configuration. We recommend using the wireless mouse and keyboard kit.
- Not included accessories requirements:
  - » Display: Resolution of 1080p or higher and with an HDMI port.
  - » PC: Equipped with HDMI or USB-C (support DP protocol) port.
  - » Ethernet cable: CAT5e or higher ethernet cable.
  - » HDMI: Standard HDMI cable.
  - » PoE switch: If you use PoE to connect speakers or cameras, you need to use PoE+.

5 Initial Setup

1. Press the power button on the left side of the MCore 4 to start it up. The Microsoft Windows 11 IoT Enterprise operating system will automatically load. After the system initializes, you can use the MTouch Plus to log in and complete the system setup. The device will automatically launch the Microsoft Teams Meeting System app and enter the setup page.
2. Follow the on-screen prompts to select the desired language, country or region, and keyboard layout, then click **Get started**.
3. Read the End User Agreement and click **Accept**.
4. Enter the one-time password you created in the Teams Meeting Rooms Pro Admin Portal and click **Continue**. Alternatively, click **Manual Setup** in the lower-right corner, enter your account and password, and click **Finish**.

6 Features

Wireless Sharing

1. Connect the WPP30 to the USB port of the MTouch Plus. When pairing, the LED indicator of WPP30 is orange. When the pairing is successful, the LED indicator turns green breathing light.
2. Connect the paired WPP30 to the USB-A/USB-C port on your PC.
3. On the WPP30, press the presentation button to share the full screen.

Pair with a RoomSensor

1. Switch the account from Microsoft Teams to Admin.
2. Open Yealink RoomConnect Software.
3. Go to **MTouch Plus** > **Device Status** > **Sensor**.
4. Select **Add** and follow the on-screen instructions to pair.

- An MTouch Plus can be paired with only one RoomSensor.
- The distance between the MTouch Plus and RoomSensor must be within 20m.
