

Pair UVC86 with Yealink MeetingEye

Introduction

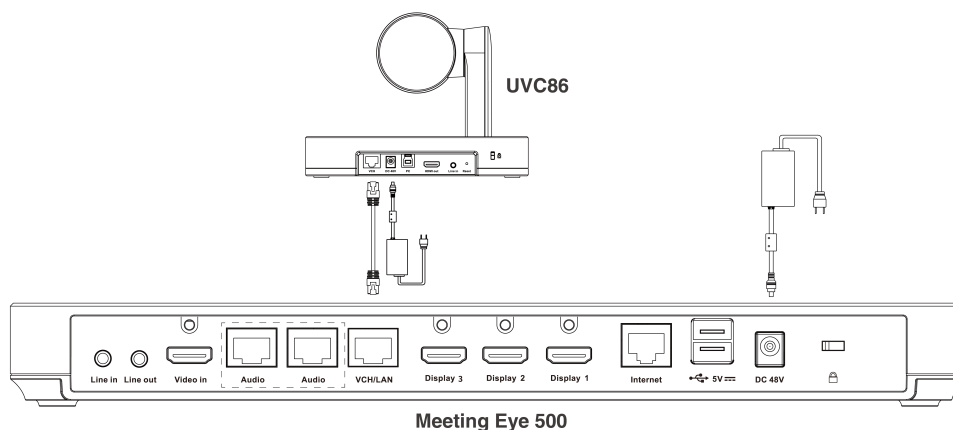

A 4K dual-eye intelligent camera for medium and large rooms for the display of every person and every detail. With auto-framing, speaker tracking and presenter tracking features, the UVC86 delivers a face-to-face, intelligent and smooth video experience by precisely reproducing every moment and detail, always showing the best picture of your room.

Before You Begin

- For the compatibility of UVC86 and Yealink MeetingEye, refer to [Rooms Accessories Compatibility Lists](#).
- For how to install and use UVC86, refer to [Yealink UVC86 Quick Start Guide](#).

Connect UVC86 to Yealink MeetingEye

Use a network cable to connect the VCH port of UVC86 and the VCH port of Yealink MeetingEye. (You can directly use the VCH port of Yealink MeetingEye to power the UVC86).

UVC86 supports manual control of the camera, auto-framing, speaker tracking, tracking mode, and preset positions. Refer to [Camera Controls](#).

Update UVC86

After UVC86 is connected to the Yealink MeetingEye, it will automatically obtain the built-in firmware from Yealink MeetingEye for automatic upgrade.

UVC86 also supports manual upgrade using Yealink RoomConnect software or through the Yealink MeetingEye web user interface.
